Summary

With over 6 years of experience in design industry, I build B2C experiences that balance user needs and business goals. Currently, I design e-commerce features at Yandex Eats, working on growth initiatives, promotions and discount mechanics, as well as complex operational and technical workflows. Previously at RBC, I worked on multiple digital products and contributed to a design system used across more than a dozen services. I enjoy tackling complex problems, designing scalable solutions, and turning intricate processes into intuitive experiences.

Experience

Yandex Eats

Hybrid · 2024 (Feb) → Present

Senior Product Designer

- Responsible for the Order stream, shaping the end-to-end customer experience from cart and checkout to post-order interactions. Design features across e-commerce, including growth initiatives, promotions, discount mechanics, and complex operational workflows. Contribute to the international expansion of the product across Africa, the Middle East, and Latin America, adapting experiences for diverse markets and user needs

Rus Business Consulting (RBC)

Remote · 2022 (Feb) → 2024 (Feb)

Product Designer

- Fully responsible for maintaining the company's products, introducing new features, testing hypotheses and offering unique solutions that improve User experience
- Participation in the development and design of an extensive Design system based on the principles of Atomic design, combining more than 10 company products
- Automated and designed more than 10 component UI Kits, Guides and Working patterns for designers, which increased the speed of design department's work by 1.2-1.5 times, depending on the type of distribution material

Communication Designer

- Fully responsible for structuring communication templates, creating UI kit for infographics, developing patterns and principles for creating unique corporate RBC Pro Illustrations
- Fully responsible for creating design solutions and corporate styles for internal and partner events, distribution media, web design and creation of materials for the RBC mobile application

Onpoint

Hybrid · 2021 (Dec) → 2023 (Feb)

UI/UX Designer

- Developed more than 20 design projects for large pharmaceutical companies. Projects are aimed at creating interactive presentations based on User interface design principles including game mechanics

Creative Industries department of BMSTU

Remote · 2019 (Jun) → 2021 (Dec)

Communication Designer

- Created a corporate identity for a leading technical University, including a Brandbook, Color palettes, UI kits, Templates and Guidelines for using corporate identity elements, which increased the ease of creating design projects and reduced the speed of their development by 1.7 times
- Co-founded the main Bauman Merch store, including the development of the store's corporate identity, product design, and the opening of a physical showroom at the University
