Summary

Senior Product Designer with over 6 years of experience in B2C products. At Yandex Eats I own the order-cycle stream and growth mechanics, running a constant pipeline of A/B experiments across promotions, cart and payments, and adapting the product for more than ten international markets. Previously at RBC I led two of the group's largest products and helped build a design system used across different services. I enjoy turning intricate operational processes into intuitive experiences.

Experience

Yandex Eats (Yango)

Hybrid · 2024 (Feb) → Present

Senior Product Designer

- Design Order stream end-to-end, from promotions and cart to payments, checkout, addresses, tracking and post-order support, together with growth and discount mechanics
- Shipped more than 40 A/B experiments to production, cumulatively delivering +5% GMV, +6% orders and +2% gross margin
- Redesigned tipping at checkout: +80% orders with tips and around ₺50M of additional courier income per year
- Reworked payment method distribution and the payment carousel across the whole flow: −5% card payment errors and +1% CM2
- Rebuilt address handling for international markets (Uzbekistan, Bolivia, Côte d'Ivoire, Zambia), from input and suggestions to courier handoff: 10–50% fewer cancellations and higher delivery success
- Launched localised promo and payment mechanics for newly opened markets, driving +10% orders from first-time users
- Redesigned the internal support admin panel, cutting request handling time by ~20%

Rus Business Consulting (RBC)

Remote · 2022 (Feb) → 2024 (Feb)

Product Designer

- Led RBC News and RBC Companies, two of the group's largest products, from hypotheses and testing to release
- Co-built the Waves design system on atomic design principles, unifying more than 10 products of the group
- Designed and automated 10+ component UI kits, guides and working patterns, speeding up the design department's work ×1.2–1.5 depending on the type of material

Communication Designer

- Structured the communication template system and built a UI kit for infographics, plus patterns and principles for RBC Pro illustrations
- Designed corporate styles for internal and partner events, distribution media, web and materials for the RBC mobile app

Onpoint

Hybrid · 2021 (Dec) → 2023 (Feb)

UI/UX Designer

- Developed more than 20 design projects for large pharmaceutical companies. Projects are aimed at creating interactive presentations based on User interface design principles including game mechanics

Creative Industries department of BMSTU

Remote · 2019 (Jun) → 2021 (Dec)

Communication Designer

- Built the University's corporate identity, from brandbook and color palettes to UI kits, templates and usage guidelines, cutting design production time by 1.7×
- Co-founded the Bauman Merch store, covering brand, product design and the launch of a physical showroom on campus

Skills

Skills

Design & AI: Figma, Sketch, full Adobe suite (PS, AI, Id, Lr). Basic skills in Blender 3D and Cinema 4D. Extensive experience creating design systems, UI kits and component libraries, Claude and Claude Code, ChatGPT, Cursor, Midjourney

Product: Stakeholder management across analytics, engineering and support. A/B testing and hypothesis validation, metric-driven decisions

Dev & Process: GitHub, Notion, Jira, Miro, Trello

Languages: English (Upper Intermediate B2), German (Grundstufe A2), Russian (Native)

Education & Additional courses

Bauman Moscow State Technical University (BMSTU)

Bachelor's degree · 2018 → 2022

Faculty of Biomedical technical systems and Technologies, including courses of engineering and computed graphics with industrial 3D modeling
